01-28-2016 11:09:16 -- 02-09-2016 13:41:51

12:32:52

Normal Event

1. Select the camera

2. Select a date in blue

3. Select Play

The image is a composite screenshot of a security camera management software interface. It is divided into several sections: 1. Top right: A camera selection menu with a list of IP addresses and camera names. 'Camera 01' is selected and highlighted in a white box. 2. Top left: A video feed window showing a room with a desk, a chair, and server racks. The IP address '192.0.0.63' is visible in the bottom right corner of the feed. 3. Middle right: A calendar widget for February 2016. The date '2' is highlighted in blue. 4. Bottom: A playback timeline with a play button icon highlighted in a white box. A red arrow points from the '3. Select Play' instruction to this button. The timeline shows a time range from 01-28-2016 11:09:16 to 02-09-2016 13:41:51. A specific time '12:32:52' is marked on the timeline. 5. Text instructions: Three red-bordered boxes with white text provide step-by-step instructions: '1. Select the camera', '2. Select a date in blue', and '3. Select Play'.

1. Scroll mouse to change the time scale and click timeline

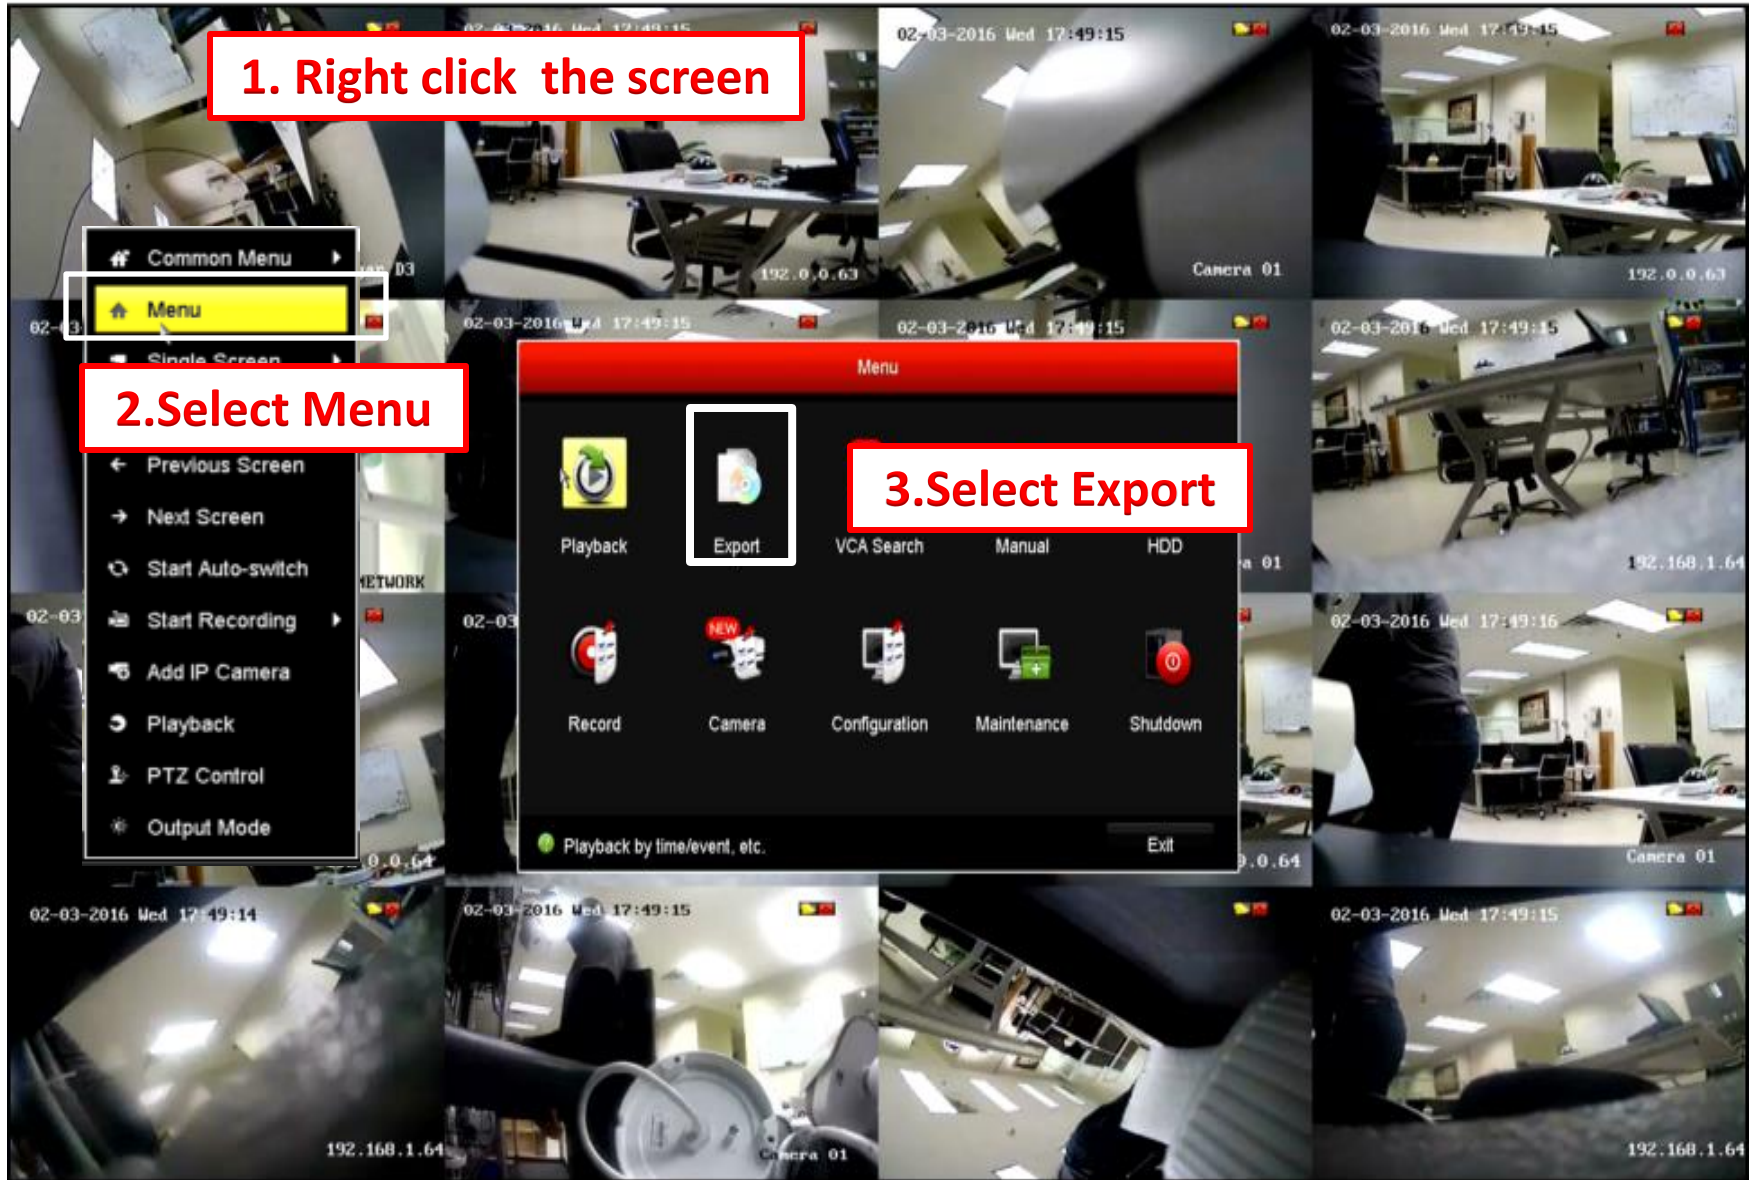

2. Click here to control recorder

Table Detailed Explanation of Playback -by-time Interface

Button	Operation	Button	Operation	Button	Operation	Button	Operation
	Audio on/ Mute		Adjust volume		Start/Stop clipping		Capture
	File lock		Add default tag		Add customized tag		File Management
