## List of Evaluated Z-Wave Devices

**Updated:** Tuesday, June 21, 2022

The following list of Z-Wave devices have been evaluated for iBridge system compatibility. **Note:** "Beaming" is a Z-Wave status message sent by a Z-Wave device that is used to "wake up" non-AC powered devices such as door locks. For installations that include Z-Wave door locks, the Z-Wave device(s) in the mesh network must support beaming in order for the door locks to function properly. For important additional information regarding 3-Way Z-Wave Device Association and Direct Range considerations, please see the related Tech Note at:

## List of Evaluated Z-Wave Devices

**Updated:** Tuesday, June 21, 2022

The following list of Z-Wave devices have been evaluated for iBridge system compatibility. **Note:** "Beaming" is a Z-Wave status message sent by a Z-Wave device that is used to "wake up" non-AC powered devices such as door locks. For installations that include Z-Wave door locks, the Z-Wave device(s) in the mesh network must support beaming in order for the door locks to function properly. For important additional information regarding 3-Way Z-Wave Device Association and Direct Range considerations, please see the related Tech Note at:

[http://tech.napcosecurity.com/index.php/techlibrary/docdetails/brand\\_id/1/doc\\_id/1907](http://tech.napcosecurity.com/index.php/techlibrary/docdetails/brand_id/1/doc_id/1907).

| Device | Model Number | Beaming | Z-Wave Protocol Version of Device | Specs | 3-Way Light Switch Compatible? | iBridge Compatible? | Notes |
|--------|--------------|---------|-----------------------------------|-------|--------------------------------|---------------------|-------|
|--------|--------------|---------|-----------------------------------|-------|--------------------------------|---------------------|-------|

### LOCKS

|                                 |  |     |      |  |  |     |   |
|---------------------------------|--|-----|------|--|--|-----|---|
| Schlage                         | BE469ZP  | Yes |      |  |  | YES | Deadbolt, Keypad. See Mfg. Spec for details.  |
| Schlage                         | FE599NX CAM 619 ACC  | Yes | 4.5x |  |  | YES | With lever. Most Z-Wave commands will function normally. Lock status may not change to match the locks physical status; therefore if lock status is used as a "Trigger" to control Z-Wave "Actions" (e.g. "door unlocked" therefore "turn light on"), an unchanging lock status Trigger will inhibit programmed Z-Wave Action(s). |
| Schlage                         | BE369NX CAM 619  | Yes | 4.5x |  |  | YES | Non-motorized deadbolt. Z-Wave commands received will not drive deadbolt, but will "engage" the knob (allowing deadbolt to be driven only if knob is turned). Proper cam alignment required for Z-Wave lock status monitoring.  |
| Kwikset                         | Home Connect 620   | Yes |      |  |  | YES | Deadbolt, Keypad. See Mfg. Spec for details.  |
| Kwikset                         | 910TRL ZW 15 SMT   | Yes | 4.5x |  |  | YES | Deadbolt  |
| Kwikset                         | 912TNL TRL ZW 15 SMT   | Yes | 4.5x |  |  | YES | Lever   |
| <i>Kwikset Signature Series</i> | SmartCode 914  | Yes |      |  |  | YES | Touchpad, Deadbolt  |
| <i>Kwikset Signature Series</i> | SmartCode 916  | Yes |      |  |  | YES | Touchscreen, Deadbolt   |
| <i>Kwikset Signature Series</i> | Traditional 910  | Yes |      |  |  | YES | Deadbolt  |
| Yale                            | YRD136 PROSL   | Yes |      |  |  | YES | Key-free Deadbolt, Keypad. See Mfg. Spec for details.   |
| Yale                            | YRD156 PROSL   | Yes |      |  |  | YES | Key-free Deadbolt, Touchscreen. See Mfg. Spec for details.  |
| Yale                            | YRDD220-619-ZW-xxxx  | Yes | 4.5x |  |  | YES | Deadbolt - Touchscreen  |
| Yale                            | YRDD210-619-ZW-xxxx  | Yes | 4.5x |  |  | YES | Deadbolt - Pushbutton   |
| Yale                            | YRD226-NR 619 lock with the optional Z-Wave module (YRMZW2-US) | Yes |      |  |  | YES | Deadbolt - Pushbutton   |
| Baldwin                         | 8235.003.ZW  | Yes |      |  |  | YES | Deadbolt, Touchscreen See Mfg. Spec for details.  |

# NAPCO iBridge System

## List of Evaluated Z-Wave Devices

**Updated:** Tuesday, June 21, 2022

The following list of Z-Wave devices have been evaluated for iBridge system compatibility. **Note:** "Beaming" is a Z-Wave status message sent by a Z-Wave device that is used to "wake up" non-AC powered devices such as door locks. For installations that include Z-Wave door locks, the Z-Wave device(s) in the mesh network must support beaming in order for the door locks to function properly. For important additional information regarding 3-Way Z-Wave Device Association and Direct Range considerations, please see the related Tech Note at:

[http://tech.napcosecurity.com/index.php/techlibrary/docdetails/brand\\_id/1/doc\\_id/1907](http://tech.napcosecurity.com/index.php/techlibrary/docdetails/brand_id/1/doc_id/1907).

| Device | Model Number | Beaming | Z-Wave Protocol Version of Device | Specs | 3-Way Light Switch Compatible? | iBridge Compatible? | Notes |
|--------|--------------|---------|-----------------------------------|-------|--------------------------------|---------------------|-------|
|--------|--------------|---------|-----------------------------------|-------|--------------------------------|---------------------|-------|

### WATER VALVE SWITCHES

|                 |                        |     |  |  |  |     |                            |
|-----------------|------------------------|-----|--|--|--|-----|----------------------------|
| EcoNet Controls | EVC200-HCSML (Bulldog) | Yes |  |  |  | YES | See Mfg. Spec for details. |
| Zooz            | ZAC36 (Titan)          | Yes |  |  |  | YES | See Mfg. Spec for details. |

### REMOTE CONTROLS

|            |       |  |      |  |  |     |  |
|------------|-------|--|------|--|--|-----|--|
| Jasco (GE) | 45601 |  |      |  |  | YES |  |
| GE         | 45600 |  | 4.2x |  |  | YES | Controls Z-Wave certified lighting controls only.  |
| GE         | 45601 |  | 4.2x |  |  | YES | Controls Z-Wave certified lighting controls and one HVAC thermostat.                           |
| GE         | 45633 |  | 6.0x |  |  | YES | Controls Z-Wave certified lighting controls, up to 4 HVAC thermostats, and up to 6 door locks. |

### CEILING FAN MODULES

|         |           |    |     |  |  |     |   |
|---------|-----------|----|-----|--|--|-----|---|
| Leviton | VRF01-1LZ | No | 2.0 |  |  | YES | Includes as a dimmer. Tested with Lamp. Stepped output, not continuously variable |
|---------|-----------|----|-----|--|--|-----|---|

### WALL SCENE CONTROLLER

|    |       |  |      |  |  |     |  |
|----|-------|--|------|--|--|-----|--|
| GE | 45631 |  | 5.0x |  |  | YES | Functions as secondary controller; not hard-wired. |
|----|-------|--|------|--|--|-----|--|

### GARAGE DOOR OPENERS

|           |            |     |  |  |  |     |  |
|-----------|------------|-----|--|--|--|-----|--|
| Linear    | GD00Z-4    |     |  |  |  | YES | Ensure the main control unit has the updated Napco firmware and updated iBridge app. |
| GoControl | GD00Z-4    |     |  |  |  | YES | Ensure the main control unit has the updated Napco firmware and updated iBridge app. |
| GoControl | GD00Z-8-GC | Yes |  |  |  | YES | See Mfg. Spec for details.   |
